Full Stack Software Developer with practical experience working on backend-heavy web applications using Node.js, Django, PostgreSQL, MongoDB, and React. Strong focus on API development, database design, and third-party service integrations. Experienced in deploying applications on AWS and collaborating with cross-functional teams to deliver stable, production-ready features.

Technical Skills

Backend: Node.js, Express.js, NestJS, Django, REST APIs, JWT Authentication

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript

Databases: PostgreSQL, MongoDB

Cloud & Tools: AWS (EC2, S3), Git, GitHub, GitHub Actions, Docker

Programming Concepts: Object-Oriented Programming (OOP), MVC Architecture

Experience

Full Stack Software Developer

OCIUZ Technologies — Thrissur, India

Aug 2025 – Present

- Developed and maintained RESTful APIs using Node.js and Django for internal and client-facing applications.
- Designed PostgreSQL schemas and optimized queries to support business workflows.
- Integrated third-party services and external APIs into existing systems.
- Implemented authentication and role-based access control for secure application access.
- Built React and Next.js components to support internal dashboards and application features.
- Worked closely with QA and product teams to debug issues and deliver reliable releases.

Backend Developer

Woxro — Thrissur, India

Apr 2025 – Jun 2025

- Built REST APIs using Node.js and MongoDB to support web application features.
- Integrated third-party APIs and handled data exchange between systems.
- Deployed and managed applications on AWS using Elastic Beanstalk and S3 and GitHub Actions.
- Improved API performance by optimizing MongoDB queries.
- Coordinated with frontend developers to finalize API contracts and data formats.

Education

Bachelor of Science in Computer Engineering

IES College of Engineering, Thrissur

2024
